

Medicinal Garden

Medicinal plant gardens are primarily focused on the conservation, cultivation and educational activities related to medicinal plant species. Nabadwip Vidyasagar College has its own medicinal garden decorated with various valuable medicinal plants like lemon grass, aloe-vera, pudina, tulsi, shotomuli, sarpagandha, basak, ashwagandha, kalmegh. It is a well maintained garden that spread the knowledge and importance of medicinal values of various plants among the students.
