Mentor-Mentee Report : PHILOSOPHY

Students of the second, fourth and sixth semester met with the faculties of the Department of Philosophy on 28th April 2022 at 12 noon in Room No. 29 at Nabadwip Vidyasagar College and their different problems within or outside the campus of the Institute were discussed thoroughly. The discussion went for two hours among students and teachers and their problems were addressed carefully. Problems of the students were categorised as academic and personal issues, which is summarised as follows .

Academical problems:

- Scattered routine .
- Problem to understand Logic.
- Problem to understand CC-10(Philosophy of Religion).
- Problem to understand CC2(History of Western Philosophy)
- Accessibility of books in the central library.
- Due to some financial crisis/urgency some of our students are engaged with some part time job as a result cannot attend classes on regular basis.

Solution:

- Problem related with the timing of classes cannot be settled by rescheduling the routine , as our college routine is Central.
- Issues related to difficulty in understanding subjects is settled by arranging some remedial and tutorial classes.
- Problem related to difficulty in availing the central library books is due to lack of knowledge regarding the procedure. Students are guided accordingly.
- Some students have joined part time jobs to support their families for economic crisis they were facing due to Covid Pandemic lockdown and they failed to attend classes. Those students are advised to attend Honours classes as much as possible. They are also advised to take help from the respective teachers personally over phone. They also advised to distribute time judiciously between study and part-time job.

Other problems and their solution:

- There are issues like inadequate classroom , smoking and noise outside the classroom. The problem is resolved by reallocating the classroom and suggested , teachers personally look after in this matter.
- There are issues like unclean corridors, washrooms and building materials stored in the classroom. We have advised the students to lodge their complaints at the Grievance Redressal Cell Dropbox and we, teachers, requested the authority to resolve this issues.
- Personal problems like lack of interest in study or attending college are discussed and resolved after individual counselling.
- One of our student is suffering from poor vision due to some disease of retina. She cannot follow the board work in the classes. She is being taken special care in the

classes and she allowed to take photos of the board work, which she can read after zooming the photos.

The meeting ended after addressing all the issues raised by the students and they are asked to feel free to communicate with the faculties as and when necessary.
